

| IHE Integration Statement  |                                  | Date                |
|--|----------------------------------|---------------------|
|  |                                  | 1.10 2011           |
| Vendor   | Product Name                     | Version             |
| EBM Technologies Inc.  | EBM Server                       |                     |
| This product implements all transactions required in the IHE Technical Framework to support the IHE Integration Profiles, Actors and Options listed below: |                                  |                     |
| Integration Profiles Implemented   | Actors Implemented               | Options Implemented |
| Scheduled Workflow (SWF)   | Image Manager                    | None                |
| Mammography Image (MAMMO)  | Image Manager                    | None                |
| Cardiac Catheterization Workflow (CATH)  | Performed Procedure Step Manager | None                |
|  | Image Manager                    | None                |
| Cardiology Evidence Document (ED-CARD)   | Image Manager                    | None                |
| Echocardiography Workflow (ECHO)   | Performed Procedure Step Manager | None                |
|  | Image Manager                    | None                |
| Nuclear Medicine Image (NMI)   | Image Manager/Archive            | None                |
| Import Reconciliation Workflow (IRWF)  | Image Manager/Archive            | None                |
| Cross-Enterprise Document Sharing (XDS.a)  | Document source                  | None                |
|  | Document consumer                | None                |
| Cross-enterprise Document Sharing for Imaging (XDS-I)  | Imaging Document Source          | None                |
|  | Document source                  | None                |
|  | Document Repository              | None                |
| Consistent Time (CT)   | Time Client                      | None                |
| Audit Trail and Node Authentication (ATNA)   | Secure Application               | None                |
|  | Secure Node                      | None                |
| Evidence Document (ED)   | Image Manager                    | None                |
| Patient Information Reconciliation (PIR)   | Image Manager                    | None                |
|  | Report Manager                   | None                |
| Consistent Presentation of Images (CPI)  | Image Manager                    | None                |
| Access to Radiology Information (ARI)  | Image Manager                    | None                |
| Key Image Note (KIN)   | Image Manager                    | None                |
