

Another solution from PenRad that will put a smile on everyone's face.

PenTrac.

Does your Mammography Information System offer this money-saving solution?

PenTrac is a web-based, automated tracking system that satisfies the MQSA audit requirements and more. It's heart and soul are based on the full featured PenRad MIS.

*Use your internet browser to enter
tracking data*

Automated database backup

*No additional hardware or software
required*

Secure data transmission

Upgradeable to full PenRad System

Automated MQSA reports

Low initial investment

PenTrac will track patients, handle recalls and reminders, and automatically calculate statistics and more. PenTrac is just another innovation from PenRad, the mammography information specialist.
