PenTrac

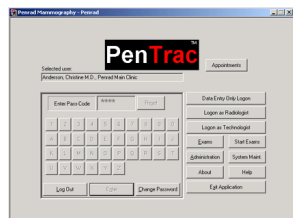

Mammography Tracking Program

Electronic Mammography
Tracking for MQSA

Are you manually tracking data? If so, why?

PenRad introduces the PenTrac Mammography Tracking Program that will revolutionize your breast center's patient tracking and MQSA reporting. With PenTrac, there is

no hardware or software to purchase, install or maintain.

Just connect

to www.penrad.com, enter your username and password and input or extract your data at any time. PenRad provides secure transmissions for electronic records and electronic signatures for both HIPAA and FDA compliance.

PenTrac will track patients, handle recalls and reminders, and automatically calculate statistics and more.

PenTrac is just another innovation from PenRad, the mammography information specialist. Give us a call and let us show you how you can start using the PenTrac Mammography Tracking Program immediately.

Easy Data Entry

The PenTrac system is easy to learn and easier to use.

The patient's demographics can be entered manually or pre-populated.

Patent ID	Last Name	First Name	DOB	DOB	Last Exam	Next Exam
1	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
2	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
3	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
4	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
5	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
6	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
7	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
8	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
9	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010
10	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010

Simply tap on the desired exam type, select the technologist, enter the exam date, select the radiologist and begin entering the tracking data.

Automated Tracking

Enter the findings, impressions and recommendations from the mammogram report by tapping on the appropriate

Tracking only Mammography Exam	Patent ID	Last Name	First Name	DOB	DOB	Last Exam	Next Exam

10	John	John	7/20/55	20/11/2010	11/1/2010	11/1/2010	11/1/2010

that patient is due for their next mammogram. With the letters option, the program will easily batch print recall and reminder letters, and patient follow-up letters.

Automated Statistical Reporting

With the PenTrac program, statistical reporting for MQSA audits are painless. Statistics are kept for each radiologist along

with statistics for your facility. Numerous reports are available to evaluate quality, efficiency, outcome analysis, cost patterns and trends.

Reporting Statistics	Patent ID	Last Name	First Name	DOB	DOB	Last Exam	Next Exam
