

Can't look both places at once? Look here.

PenRad, the mammography information specialist, introduces PenScan* the imaging solution for analog and digital review.

PenScan* offers a unique solution to capture current and prior studies for archive and softcopy review. And patient selection is available through DICOM, the PenRad MIS, HL-7, barcode or manual entry. Select a patient for scanning. And bulk feed provides unattended operation while PenScan* identifies key components to automate QC.

Automatic DICOM image routing for softcopy and archive. And with PenRad's DICOM server, a complete imaging and storage solution is here today.

At PenRad, mammography information is our only business. We are the specialists and continually set new standards for complete mammography information systems. Now, you can look both places at once.

For more information please contact us at 764.475.3388 or visit www.penrad.com.
